<ul style="list-style-type: none">• Worked in Vue.JS for Front End Development• Tested the app/website using an isolated staging environment to identify bugs and maintain reliability• Report bugs based on priority and severity• Write automated tests in JavaScript to confirm program is running efficiently and provide quality assurance	

PROJECTS

Portfolio Site, [Github Link For Portfolio](#)

Created my own portfolio website to add frontend projects that I created with HTML, JavaScript and CSS

- Django for Backend to manage all projects I add in the future to my site
- Included are apps to track expenses, manage my water intake, digital clock showing my local time etc.

Tour of Italy, [GitHub Link for Project](#)

Worked with a team of 12 to create a website to provide people with an insight of Italy and its attractions

- Used Google API to incorporate a Google Maps location on specific landmarks
- React for Front-End
